Dress down 3/13 for \$1

No School 3/15 PD Day

Little Kings and Queens Dance 3/22

Spring Break 3/25-3/29 Students return 4/1

What's happening in P.E.?

Standard 1: DEMONSTRATES COMPETENCY IN A VARIETY OF MOTOR SKILLS AND MOVEMENT PATTERNS

Objective: Students learn how to illustrate competency in locomotor and non-locomotor skills through movement patterns and cues within our gym to create body and space awareness, safe behaviors, and valuable decision making capabilities. Those motor skills include: walking, running and sliding, jumping, galloping, skipping, hopping and leaping all in a stable environment. Non-locomotor skills include bending, twisting, turning, swaying, and stretching in an exploratory and a stable environment.

Additional activities routinely performed during class is FITT! The initials represent 4 general components of a fitness plan including: Frequency, Intensity, Time and Type. Each component can be customized to individual goals and abilities. EK-4TH students practice and perform at least 10 exercises from the chart 3 times a week during gym class. Students are encouraged to practice these exercise skills at home as well!
